

```
#include <stdio.h>
#include <stdlib.h>

int main(int argc, char *argv[])
{
    int sum=0,i;

    for(i=1;i<argv[i]!=NULL;i++)
    {

        printf("%d\n",atoi(argv[i]));
        if(atoi(argv[i]))
            sum+=atoi(argv[i]);
        else
            return 0;
    }
    printf("%d\n",sum/3);
}
```
